Two pairs of solutions. General strategy are black captures on g4 and e4 and mates by re-capture (I and II) and moves on g4 and e4 by black king (III and IV). In each pair is the same general aim achieved both by White and Black – in I and II simultaneously, by unpin of white queen and line-opening for Black (1.- K:h5 and 1.b6 respectively), in III and IV reciprocally by Black and White (1.Rf5 interference, 1.- Kg7 unpin × 1.Sc6 unpin, 1.- e5 interference)
