An excellent three-fold chameleon-echo (with Ideal mates!) achieved with five pieces after long and very activae play, by all white and black pieces, in three different directions of the board. (judge)

An elegant "Aristocrat" Miniature. Twin maneuvers achieve two echo mate positions specific to this conditions and one of them in the set-play! (judge)

Трижды проходит симпатичное систематическое движение трех фигур, ставшее возможным благодаря смене «цветности» черного слона .В третьей фазе мы видим круговой механизм, при помощи, которого белые ладьи аккуратно блокируют поля a1 и a3..Очень хорошее использование всех трех сказочных правил.
