1. SWg3 EAa8 2. Rxh5 SWxf3#

Creation of a black hurdle for the mate move by the jump of the black eagle /
black sparrow over the black bishop / black rook which will be a hurdle itself
by capturing the white pawn; occupation of the rebirth field of the black rook
/ black bishop by the white eagle / white sparrow to prevent the removal of
the black hurdle in the mate move; functional exchange between the white
eagle and white sparraw as well as black rook and black bishop.

Zilahi; Chumakov theme (the figure captured in one phase actively blocks in
the other phase); capture of the black pawn by the white mating figure to
the prospective line opening for the mate move; dual avoidance in the 2nd
white move; orthogonal / diagonal solution; model mate.

1. Sg6 Se5 2. Rd4+ Qxd4#

Interference of a black line by the white knight; creation of a black bishop
- rook / queen - knight battery by interference of another black line by the
black rook / black knight while opening a black line; this allows black to
capture the white checking rook by firing the black battery.
